SUMMARY

Computer Science student specializing in machine learning and data engineering, strong Python and SQL skills.

SKILLS

Python, pandas, numpy, scikit-learn, SQL, machine learning, data visualization, matplotlib, Git, API integration, statistics

EXPERIENCE

Data Science Intern - Insight Analytics (6 months)

- Built and evaluated ML models using scikit-learn
- Cleaned and merged data from multiple SQL sources
- Created visualizations to communicate insights to stakeholders

EDUCATION

BS Computer Science, expected 2026

PROJECTS

- Churn prediction model, Kaggle housing price regression project
